Dubai School Inspection Bureau identified:

#### Key strengths of the school:

- The students' good spiritual, civic and environmental understanding;
- The extra-curricular provision;
- The high quality of medical guidance and support for students;
- Clear vision and effective leadership of the Principal for whole school development;
- Productive relationships with parents;
- The school facilities that provided a positive learning environment.

#### Dubai Schools Inspection Bureau requires that the school take the following action to secure further improvement:

- Extend teaching and learning strategies, including Information and communication technology, to engage students more and promote independent learning skills;
- Improve the use of assessment so that students can be set targets for improvement and teachers are able to plan lessons better to match the learning needs of the students;
- Establish procedures for whole school behaviour management and improve the behaviour of older boys;
- Address the health and safety issues raised in the report;
- Ensure that action plans at departmental and classroom level show clear targets, who is responsible and time scales for implementation;
- Establish a governing body to take a strategic role, with senior staff, to lead school improvement.

#### Next steps:

New World Private School has to prepare an action plan indicating how they will address the main findings of the report, and to share that plan with parents. The next inspection will report on the progress made by the school.

#### About Inspections:

##### The purpose of inspection

The inspection was part of a strategy to evaluate educational standards and quality in all of the schools in Dubai. The inspection covered core aspects of the work of the school at all stages. Inspectors assessed the students' progress in key subjects, in particular, Arabic, Islamic Studies, English, mathematics and science (Grades 6 -12). They evaluated important aspects of the work of the school including the quality of teaching and learning, the arrangements to protect and support students including health and safety, leadership and management and the school's capacity for improvement.

##### The framework for inspection

All schools in Dubai were evaluated against seven central questions based on internationally accepted research into school effectiveness. Inspectors' evaluations concluded with a final judgement regarding the overall performance of the school. In the first cycle of inspections the judgement used for every school was:

##### Description of inspection levels

**Level 4: Outstanding quality** – exceptionally high quality of performance or practice.

**Level 3: Good quality** – the expected level for every school in Dubai.

**Level 2: Acceptable** – the minimum level of acceptability required for Dubai. All key aspects of performance and practice in every school should meet or exceed this level.

**Level 1: Unsatisfactory** – quality not yet at the level acceptable for schools in Dubai. Schools will be expected to take urgent measures to improve the quality of any aspect of their performance or practice that is judged at this level.

More information regarding the Inspection levels can be found in the online version of the Initial Quality Inspections Handbook at [www.khda.gov.ae](http://www.khda.gov.ae).

### Inspectors assessed the following aspects of the work of the school:

- How good is the students' progress?
- How good is the students' personal and social development?
- How good is the teaching and learning?
- How well does the curriculum meet the educational needs of the students?
- How well does the school protect and support students?
- How good are the leadership and management of the school?
- How well does the school perform overall?

### What happens next year?

A full report will be provided to parents in the second year. This will include information regarding inspectors judgements on each of the quality indicators assessed.
